

How to open and write on documents

1. Download the document from VLE by clicking onto it. You will see that it downloads at the bottom of your page.

2. Click the download that is at the bottom of your page. This will open the document on your device.
3. When your download opens, click on enable editing.

4. Then make sure that you save it by clicking File - Save As - remember to save it with your name or initials.
