Theme Homework - Spring 1 Term

As seen in the most recent sway newsletter our approach to homework is now changing to weekly given tasks to be completed in homework books by the deadline below.

For this week's task, every child should create a powerful poster that alerts people about an endangered animal of their choice. This can be completed digitally and printed or draw or even painted.

This should be eye-catching, full of information, statistics and solutions to help spread awareness about this endangered animal.

Deadline: Friday 7th February 2025
