Design and Technology Learning Cycle

Skills
Learn and practise our skills. for example, gears levers and pulleys for mechanics, food hygiene for cookery or stitches for textiles.

Design
Researching a product'suses, along with exploring the materials that would best suit it and creating a design.

Make
Application of skills to create a product based on our design.

Evaluate
Reflection on how well our products turned out compared to our designs.

Improve
Taking the opportunity to apply our evaluations and make suitable improvements to our product.
