A Message from School Trends—Uniform Ordering

Order Turnaround

Since returning to production we have increased our operational hours so we are almost working 24/7. This has helped with our social distancing measures and as a result, we have managed to keep our average turnaround time at 13 days.

Order Early

As everyone is getting ready for September, our production is way above our average levels and it is still increasing. Like all summers, we expect to be very busy during July and August. We would appreciate you helping us spread the 'order as early as possible' message, to parents, to help us manage our production through the summer.

New Website

On another note, if you head over to [our website](#), you'll notice a considerable change. We have revamped it to make it as easy as possible for all our customers to use. We hope you agree that it's a very positive improvement.
